

João Moura

Full Stack Developer | Backend, SaaS and Automation

PROFESSIONAL SUMMARY

Full Stack Developer and Systems Analysis student with hands-on experience building and operating production digital products. I develop end-to-end solutions with Node.js, Express, PostgreSQL, Redis, Docker, APIs and webhooks, including a multi-tenant restaurant SaaS, WhatsApp automation, CRM and secure authentication. I bring 15+ years of food-service management experience, connecting business requirements, user experience, KPIs and technical delivery. I am seeking a Junior Full Stack or Backend role.

CORE SKILLS

Backend: JavaScript, Node.js, Express, REST APIs, webhooks, SSE	Data: PostgreSQL, Redis, Prisma, Sequelize, migrations and audit trails
Infrastructure: Docker Compose, Linux/VPS, Nginx, Cloudflare and Tailscale	Quality: Node Test Runner, Playwright, Pino, idempotency and health checks

SELECTED TECHNOLOGY PROJECTS

MyFoodLink — Multi-tenant restaurant SaaS

2026 — present

Independent project · Node.js, Express, PostgreSQL, Redis, Evolution API and Docker

- Built WhatsApp service flows, human handoff, CRM, consent-aware campaigns, online menus, bookings, reviews, loyalty and analytics.
- Implemented a control plane for idempotent, auditable tenant provisioning with isolated databases, containers, messaging instances, domains and TLS, plus preflight checks, health checks and controlled rollback.
- Created a client portal with invitations, password recovery, Turnstile, secure sessions and Ed25519 SSO; the ecosystem includes 500+ versioned automated test cases across 52 test files.

Donilla Commerce Platform

2026

Independent project · github.com/joaoluan/donilla-app

- Built an e-commerce platform with catalog, orders, Asaas checkout and webhooks, public tracking, audit trails, real-time SSE admin and WhatsApp automation.
- Structured input validation, automated tests, Playwright smoke tests and pre-deployment checks for its Docker runtime.

PROFESSIONAL EXPERIENCE

General Manager · Fatbull Tap House

Jun. 2025 — present

Team leadership and development; quality, inventory, suppliers, costs, KPIs and campaigns.

Restaurant Manager · America Steak House

Apr. 2023 — Apr. 2025

Customer service and retention across a 10,000+ customer base; teams, bookings, purchasing and operations.

Food-service management and entrepreneurship

2009 — 2019

Worked as a manager and operating partner in restaurant businesses, focusing on people, costs, inventory, service and processes.

EDUCATION AND LANGUAGES

Systems Analysis and Development · UNISINOS Technology degree in progress · expected completion in 2026	Advanced English Technical reading and professional communication
